

SMA Male Right Angle to N Female Bulkhead Semi-Flexible Precision Cable 6 Inch Length Using PE-SR402FL Coax, RoHS

# **TECHNICAL DATA SHEET**

Pasternack's formable cable assemblies are hand formable semi-rigid replacements that are an alternative to costly preformed assemblies. The formable semi-rigid cable alternatives are dimensionally and electrically similar to their semi-rigid counterpart and have a tinned-copper-braid outer shield that provides excellent RF shielding. The hand formable cable assemblies from Pasternack do not require special tooling to shape or reshape the assemblies and can replace standard semi-rigid versions. The assemblies are available with or without a FEP jacket and are RoHS compliant,

#### Features

 Dimensionally and electrically the same as standard, solid outer conductor semi-rigid coax

- Cable may be formed by hand and does not require special tools to bend
- May be formed more than once without damaging the outer conductor
- Configuration
