UMCX 2.1 Plug to UMCX 2.1 Plug Cable 6 Inch Length Using 0.81mm Coax, RoHS

TECHNICAL DATA SHEET

Pasternack's UMCX 2.1 series ultra-miniature coaxial cable assemblies (also called 2.1mm UMCX) have a mated connection height of only 2.1mm. They are constructed using a flexible micro-coax cable and are compatible with products such as Hirose U.FL, IPEX MHF and other UMCX connector and cable manufactures. Our UMCX 2.1 plug connectors are comparable in design to the Hirose U.FL connectors and the IPEX MHF series connectors. Pasternack also provided three additional connector options for our in-series 0.81mm micro-coax jumper cables including UMCX 2.1, WMCX 1.6 and HMCX32 1.2 connectors.

These small form factor, flexible micro-coax jumper cables provide a low profile RF connection perfect for board-to-board connectivity such as mini-PCI circuit boards. With performance up to 6 GHz, these UMCX jumper cables are ideal for wireless applications including Wi-Fi, Bluetooth, GPS, ZigBee, LTE and many others. Our UMCX 2.1 cable assemblies are available from stock in standard lengths, and custom lengths are available upon request. Standard length UMCX 2.5 cables ship same day they are ordered.

PDA/PCS/Cellular Handset

applications

Features

- · 2.1mm mated assembly height
- · Operate from DC to 6 GHz
- 100% RF and Continuity tested

Applications

- Wireless LAN, Mini PCI Mobile Antenna/GPS/Radio Systems
- Configuration

Connector 1 Connector 2 Cable Type
