MCX Jack to SMA Male Right Angle Cable 24 Inch Length Using RG316-DS Coax with HeatShrink, LF Solder

RF Cable Assemblies Technical Data Sheet

PE3W01114LF/HS-24

Description

Pasternack's PE3W01114LF/HS-24 MCX jack to SMA male right angle 24 inch cable using RG316-DS coax is part of our full line of RF components available for same-day shipping. Pasternack's flexible RF cable assemblies are ideal for applications where tight bends and flexure are required. This Pasternack MCX to SMA cable assembly has a jack to male gender configuration with 50 ohm flexible RG316-DS coax. The PE3W01114LF/HS-24 MCX jack to SMA male cable assembly operates to 3 GHz. The right angle SMA interface on the RG316-DS cable allows for easier connections in tight spaces. The double shield-ing of this Pasternack cable assembly provides excellent shielding effectiveness.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		3	GHz
VSWR			1.6:1	
Velocity of Propagation		70		%
Capacitance		29.4 [96.46]		pF/ft [pF/m]
