**Description**

Pasternack's PE3W01570-200CM MCX plug right angle to BNC female 4 hole flange 200 cm cable using RG316-DS coax is part of our full line of RF components available for same-day shipping. Pasternack's flexible RF cable assemblies are ideal for applications where tight bends and flexure are required. This Pasternack MCX to BNC cable assembly has a plug to female gender configuration with 50 ohm flexible RG316-DS coax. The PE3W01570-200CM MCX plug to BNC female cable assembly operates to 2 GHz. The right angle MCX interface on the RG316-DS cable allows for easier connections in tight spaces. Our RF cable assembly with BNC 4 hole flange interface allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications. The double shielding of this Pasternack cable assembly provides excellent shielding effectiveness.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.
