

SMC Plug Right Angle to TNC Female Bulkhead Cable 12 Inch Length Using RG178 Coax

RF Cable Assemblies Technical Data Sheet

PE3W05426-12

Configuration

Connector 1: SMC Plug Right AngleConnector 2: TNC Female Bulkhead

Cable Type: RG178

Features

- 70% Phase Velocity
- FEP Jacket

Applications

· General Purpose

· Laboratory Use

Description

Pasternack's PE3W05426-12 SMC plug right angle to TNC female bulkhead 12 inch cable using RG178 coax is part of our full line of RF components available for same-day shipping. Pasternack's flexible RF cable assemblies are ideal for applications where tight bends and flexure are required. This Pasternack SMC to TNC cable assembly has a plug to female gender configuration with 50 ohm flexible RG178 coax. The right angle SMC interface on the RG178 cable allows for easier connections in tight spaces. Our RF cable assembly with TNC bulkhead interface allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.
