

RF Cable Assemblies Technical Data Sheet

PE3W06449LF/HS-150CM

Configuration

- Connector 1: N Female Bulkhead
- Connector 2: BNC Male Right Angle
- Cable Type: RG400

Features

- Max Frequency 3 GHz
- 70% Phase Velocity
- Double Shielded
- FEP Jacket

Applications

General Purpose

Laboratory Use

Description

Pasternack's PE3W06449LF/HS-150CM type N female bulkhead to BNC male right angle 150 cm cable using RG400 coax is part of our full line of RF components available for same-day shipping. Pasternack's flexible RF cable assemblies are ideal for applications where tight bends and flexure are required. This Pasternack type N to BNC cable assembly has a female to male gender configuration with 50 ohm flexible RG400 coax. The PE3W06449LF/HS-150CM type N female to BNC male cable assembly operates to 3 GHz. The right angle BNC interface on the RG400 cable allows for easier connections in tight spaces. Our RF cable assembly with type N bulkhead interface allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications. The double shielding of this Pasternack cable assembly provides excellent shielding effectiveness.

Custom versions of most RF cable assemblies can be built and shipped same day. Custom cable assembly lengths can be obtained by specifying the desired length on the web site at time of order or by contacting a sales representative. Other available RF cable assembly value added services include connector orientation or clocking, heat shrink booting and custom labeling. RF testing can also be performed to document the electrical performance of your cable assembly.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		3	GHz
VSWR			1.4:1	
Velocity of Propagation		70		%
Capacitance		32 [104.99]		pF/ft [pF/m]
Operating Voltage (AC)			500	Vrms
