

N Female Field Replaceable Connector 4 Hole Flange Mount Slotted Contact Terminal, 1.24 inch Sq. Flange Watt Meter Connector

RF Connectors Technical Data Sheet

PE44721

Configuration

- N Female Connector
- MIL-STD-348
- 50 Ohms
- Straight Body Geometry

Features

- Max Frequency 11 GHz
- Silver Plated Contact

Applications

General Purpose Test

• 4 Hole Flange

Slotted Contact Interface Type

Field Replaceable Attachment

Contact plating according to QQ-S-365

Rack and Panel Mount Applications
Watt Meter

Description

Pasternack's PE44721 type N female 4 hole flange mount connector with field replaceable attachment slotted contact terminal is part of our full line of RF components available for same-day shipping. Our type N female connector operates up to a maximum frequency of 11 GHz. This type N 4 hole flange connector allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications. This field replaceable connector is easy to install or replace in the field. The N type quick change (QC) connector is designed for wattmeter applications.

Our type N female 4 hole flange connector PE44721 datasheet specifications and drawing with dimensions are shown below in this PDF. Pasternack's broad catalog of RF, microwave and millimeter wave connectors allows designers to configure and customize their signal connections however they like. Whether the need is to provide an I/O for a board design, or simply create a custom cable assembly configuration, Pasternack has the right connector for the job. Pasternack can also expertly build your custom cable assemblies for you and ship same-day.
