

# High Power 200 Watt RF Load Up to 3 GHz With N Female Input High Power Black Anodized Aluminum Heatsink

## RF Terminations Technical Data Sheet

PE6231

### Features

- High Power RF Load
- DC to 3 GHz Frequency Range
- VSWR 1.25:1 Max
- Max Power 200 Watt (CW)
- N Female Coaxial Interface

### Applications

- Wireless
- Radar Systems
- Test and Measurement
- Commercial and Military Communication
- SatCom

### Description

Pasternack's PE6231 is an RF termination (also called RF load or dummy load) that operates from DC to 3 GHz and handles up to 200 Watt (CW). Our N termination / load has a female gender. PE6231 N load termination offers 1.25:1 max VSWR. This Pasternack high power 200W N terminator has a heatsink body which is designed to provide adequate heat dissipation within its full frequency of operation.

RF load / terminations are indispensable components in many RF, microwave and millimeter wave systems where signal reflection from unused ports can potentially damage the device or reduce the signal integrity. By using a terminator on an unused port with a matched load (dummy load), the incident energy will be absorbed with minimal reflection. These termination components are commonly used to terminate devices such as couplers, circulators, and switches. They are also widely used in measurement systems to ensure accurate results. Pasternack offers a huge selection of RF, microwave and millimeter wave terminations up to 65 GHz with excellent performance over the entire operating range and power handling capabilities up to 800 Watt (CW).

### Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		3	GHz
Impedance		50		Ohms
VSWR			1.25:1	
Passive Intermodulation			-100	dBc
Input Power (CW) derated linearly to 20W at +125°C			200	Watts
Input Power (Peak) 5µs pulse, 2% duty cycle			10	KWatts

#### Electrical Specification Notes:

Passive intermodulation measured with two 20W signals at 935 MHz and 960 MHz.

Typical Performance Data

High Power 200 Watt RF Load Up to 3 GHz With N Female Input High Power Black Anodized Aluminum Heatsink from Pasternack Enterprises has same day shipment for domestic and International orders. Our RF, microwave and millimeter wave products maintain a 99% availability and are part of the broadest selection in the industry.
