

Hermetically Sealed Snap-On QMA Male to QMA Male Snap-On Adapter

RF Adapters Technical Data Sheet

PE91341

Configuration

- Snap-On QMA Male Connector 1
- Snap-On QMA Male Connector 2
- 50 Ohms
- Straight Body Geometry

Features

- Max VSWR of 1.08:1 up to 6 GHz
- Hermetically Sealed
- 51 μ in. minimum contact plating
- Gold Plated Beryllium Copper Contact

Applications

- General Purpose Test
- Vacuum Test Environment

Description

Pasternack's PE91341 hermetically sealed snap-on QMA male to QMA male snap-on adapter is part of our full line of RF components available for same-day shipping. Our QMA to QMA adapter has a male to male gender configuration. PE91341 QMA male to QMA male adapter operates to 6 GHz. The Pasternack RF adapter provides excellent VSWR of 1.08:1 maximum. This hermetic QMA to QMA adapter prevents the leakage of gases, making it suitable for high pressure or vacuum applications or whenever an airtight seal is required.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		6	GHz
VSWR			1.08:1	
Insertion Loss			0.12	dB
Operating Voltage (AC)			500	Vrms
Dielectric Withstanding Voltage (AC)			1,000	Vrms
Insulation Resistance	5,000			MOhms
RF Leakage			70	dB
