

SMA Female to SMC Plug Adapter

RF Adapters Technical Data Sheet

Configuration

- SMA Female Connector 1
- SMC Plug Connector 2

Features

- Max VSWR of 1.2:1 up to 10 GHz
- SMA Interface compliant with MIL-STD-348

Applications

Allows Connection Between Series
 General Purpose Test

Description

Pasternack's PE9146 SMA female to SMC plug adapter is part of our full line of RF components available for same-day shipping. The SMA connector mates mechanically with commercially available 3.5mm and 2.92mm (K) connectors. Our SMA to SMC adapter has a female to plug gender configuration. PE9146 SMA female to SMC plug adapter operates to 10 GHz. The Pasternack RF adapter provides excellent VSWR of 1.2:1 maximum.

• 50 Ohms

Straight Body Geometry

SMC Interface compliant with MIL-STD-348
Gold Plated Beryllium Copper Contact

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/ disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
