

Bulkhead Mount MCX Jack to MCX Jack Adapter

RF Adapters Technical Data Sheet

PE9474

Configuration

- MCX Jack Connector 1
- MCX Jack Connector 2
- 50 Ohm
- Straight Body Geometry
- Bulkhead Mount Method

Features

- Max VSWR of 1.35:1 up to 3 GHz
- 30μ in. minimum contact plating
- Gold Plated Contact

Applications

- General Purpose Test
- Rack Mounted Equipment
- General Purpose Test
- Rack Mounted Equipment

Description

Pasternack's PE9474 bulkhead MCX jack to MCX jack adapter is part of our full line of RF components available for same-day shipping. Our MCX to MCX adapter has a jack to jack gender configuration. PE9474 MCX jack to MCX jack adapter is gold plated and operates to 3 GHz. The Pasternack RF adapter provides good VSWR of 1.35:1 maximum. This RF MCX bulkhead to MCX adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		3	GHz
VSWR			1.35:1	
Operating Voltage (AC)			335	Vrms

Performance by Frequency

Description	F1	F2	F3	F4	F5	Units
Frequency Range	DC to 1					GHz
VSWR, Max	1.22:1
