

MMCX Plug to BNC Female Adapter

RF Adapters Technical Data Sheet

PE9519

Configuration

- MMCX Plug Connector 1
- BNC Female Connector 2

Features

- MMCX Interface compliant with MIL-C-39012
- BNC Interface compliant with MIL-STD-348

- 50 Ohms
- Straight Body Geometry
- Gold Plated Contact
- Contact Plating per MIL-G-45204

Applications

Allows Connection Between Series

General Purpose Test

Description

Pasternack's PE9519 MMCX plug to BNC female adapter is part of our full line of RF components available for same-day shipping. Our MMCX to BNC adapter has a plug to female gender configuration.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
