

## 75 Ohm N Female to SMB Jack Adapter

### RF Adapters Technical Data Sheet

PE9583

#### Configuration

- N Female Connector 1
- SMB Jack Connector 2
- 75 Ohms
- Straight Body Geometry

#### Features

- N Interface compliant with MIL-STD-348
- SMB Interface compliant with MIL-STD-348
- Gold Plated Contact
- Contact Plating per MIL-G-45204

#### Applications

- Allows Connection Between Series
- General Purpose Test

#### Description

Pasternack's PE9583 75 ohm type N female to SMB jack adapter is part of our full line of RF components available for same-day shipping. Our type N to SMB adapter has a female to jack gender configuration.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

#### Mechanical Specifications

##### Size

Length	1.383 in [35.13 mm]
Width	0.625 in [15.88 mm]
Weight	0.064 lbs [29.03 g]

Description	Connector 1	Connector 2
Type	N Female	SMB Jack
Polarity	Standard	Standard
Interface Specification	MIL-STD-348	MIL-STD-348
