

N Male to N Female Bulkhead Adapter

RF Adapters Technical Data Sheet

PE9595

Configuration

- N Male Connector 1
- N Female Connector 2
- 50 Ohms
- Straight Body Geometry
- Bulkhead Mount Method

Features

- Max VSWR of 1.3:1 up to 11 GHz
- N Interface compliant with MIL-STD-348A
- Silver Plated Beryllium Copper Contact
- 200 μ -in min Silver Contact Plating

Applications

- General Purpose Test
- Rack Mounted Equipment

Description

Pasternack's PE9595 type N male to type N female bulkhead adapter is part of our full line of RF components available for same-day shipping. PE9595 type N male to type N female adapter operates to 11 GHz. The Pasternack RF adapter provides good VSWR of 1.3:1 maximum. This RF type N to type N bulkhead adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		11	GHz
VSWR			1.3:1	
Operating Voltage (AC)			500	Vrms

Mechanical Specifications

Size	
Length	1.725 in [43.82 mm]
Width	0.87 in [22.1 mm]
Weight	0.144 lbs [65.32 g]
