

Mini UHF Male to FME Plug Adapter

RF Adapters Technical Data Sheet

PE9705

Configuration

- Mini UHF Male Connector 1
- FME Plug Connector 2

- 50 Ohms
- Straight Body Geometry

Features

Gold Plated Brass Contact

Applications

Allows Connection Between Series

General Purpose Test

Description

Pasternack's PE9705 Mini UHF male to FME plug adapter is part of our full line of RF components available for same-day shipping. Our Mini UHF to FME adapter has a male to plug gender configuration.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications

Size

 Length
 0.9 in [22.86 mm]
