

75 Ohm F Female to BNC Female Adapter

RF Adapters Technical Data Sheet

PE9744

Configuration

- F Female Connector 1
- BNC Female Connector 2
- 75 Ohms
- Straight Body Geometry

Features

- Max VSWR of 1.3:1 up to 3 GHz
- Gold Plated Contact

Applications

- Allows Connection Between Series
- General Purpose Test

Description

Pasternack's PE9744 75 ohm type F female to BNC female adapter is part of our full line of RF components available for same-day shipping. Our type F to BNC adapter has a female to female gender configuration. PE9744 type F female to BNC female adapter operates to 3 GHz. The Pasternack RF adapter provides good VSWR of 1.3:1 maximum.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		3	GHz
VSWR			1.3:1	

Mechanical Specifications

Size	
Length	1.638 in [41.61 mm]
Width	0.5 in [12.7 mm]
Weight	0.048 lbs [21.77 g]

Description	Connector 1	Connector 2
Type	F Female	BNC Female
Polarity	Standard	Standard
